

**The Stargazer is an inclusive playground spinner that challenges balance and coordination.**

We have designed IP8004 to be used seated, standing, or lying down. At wheelchair transfer height, the Stargazer provides a supportive, dynamic experience. This is beneficial for those who may feel less confident or have less physical mobility. The textured safety surfacing is impact absorbing for safer, more comfortable play. Each position challenges balance and coordination for all children, while encouraging cooperative play. Promoting social interaction and cooperation between children while offering multiple ways to play.

Scale: 1:30

A4

Activities	.. Spinning, supportive movement, self propelled movement.
Features	.. Angled fixing, safety surfacing
Age Range	.. 2 to 12 years
No. of Users	.. 2
Falling Space	.. 18.8m <sup>2</sup>
FFH	.. 1m
Materials	.. Powder coated steel, rubber wetpour surface
Approx. Weight	.. 40kg
Concrete Volume	.. 0.19m <sup>3</sup>
